

Veterinary Horse Dentist (m/f/d) starting 1st July 2025 Head and Development of Dental Department

About Us

The Hanse Equine Hospital is one of Germany's leading specialist clinics for ophthalmology, laryngeal surgery, orthopaedic surgery, and pre-purchase examinations. We also offer nearly all services in classical orthopaedics, general surgery, internal medicine, and emergency surgery. With our professionally equipped operating theatres combined with state-of-the-art CT imaging technology, we stand for innovative and progressive equine medicine.

Your Opportunity

You are an experienced equine dental veterinarian for horses looking for a new challenge where you can make your mark. We have a newly equipped dental station of the highest standard and are now seeking you to expand our dental clinic.

Your Responsibilities

- Perform a wide range of evidence-based dental procedures on horses (including prophylaxis and dental repair): from routine dental treatments and classic tooth extractions to dental fillings and root canal treatments (in collaboration with external specialists). You can also perform complicated sinus operations.
- Learning from and with each other is part of Hanse Equine Hospital's DNA. We already work with international dental specialists who also operate in our clinic. This includes collaboration with our veterinary team of specialists to ensure the highest standards in cross-disciplinary cases. You are never on your own.
- Develop and expand the dental department: We give you free rein in scheduling appointments and managing your staff, and you will receive all the support you need.
- Lead and develop your team, guide and mentor junior staff and interns. We will provide coaching for you during the initial phase.
- Communication with horse owners and customer service is a top priority for us.
- Participation in emergency on-call services in the background is optional but not mandatory.
- Participate in continuing education and lectures at our clinic.

Your Profile

- Completed veterinary medicine degree with specialisation in equine dentistry
- Several years of professional experience in treating horses, especially in dentistry
- Enthusiasm for continuing education, staying up-to-date with developments in equine dentistry
- Ability to work independently while also being a team player
- Leadership qualities with the ability to manage your team efficiently and goal-oriented, and a desire to further develop these skills
- Empathetic approach to patients and in communication with clients
- Fluent German language skills
- Experience in caring for top sport horses is advantageous
- Knowledge of EasyVET is desirable

Facts and Benefits

- Growth perspective: We want to develop you into an independent, nationally renowned equine dental specialist
- Direct interaction with management: Participate in decision-making, shape and independently lead your own department
- Permanent employment, open communication & flat hierarchies

- Flexible work arrangements
- Modern equipment & mobile working
- Opportunities for professional development and further education

If equine dentistry for horses is your passion and you're looking for a team where you can expand your skills and advance your career, then you're in the right place with us!

We look forward to receiving your application in PDF format (CV, certificates, and possible start date) to:
